

FOUR-YEAR GRADUATION PLAN

New Hanover County Schools has created a four-year schedule template for students to track their graduation progress. When selecting courses, please keep in mind the North Carolina and NHCS high school course requirements and remember to utilize a school counselor in order to best customize your schedule.

Note: North Carolina State Board and NHCS High School Requirements: English (4 credits), Math (4 credits), Science (3 credits), Social Studies (4 credits), World Language* (2 credits), Graduation Project (1 credit) PE/Health (1 credit), and Electives (9 credits – these credits can come from CTE, Arts, JROTC, or any content area). **28 total credits are needed to graduate.**

*World Language is not required to graduate high school, but it is a requirement to enter a North Carolina state college or university.

**Some of the required courses may be substituted for Advanced Placement (AP) courses. Please see page 4 for more information.
