## 3. HAZARD IDENTIFICATION

**EMERGENCY OVERVIEW**

Causes moderate eye irritation. Avoid contact with eyes or clothing.

**POTENTIAL HEALTH EFFECTS:**

**EYE:** Moderate eye irritant.

**POTENTIAL PHYSICAL HAZARDS:** May react with metals such as galvanized or mild steel to produce hydrogen gas, potentially forming a highly combustible gas mixture.

## 4. FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

## 5. FIRE-FIGHTING MEASURES

**Flash point:** Will not flash  
**Flammable Limits (LFL-UFL):** N/A  
**Fire and Explosion Hazards:** During a fire, product may generate irritating or toxic gasses through thermal decomposition.  
**Means of Extinction:** Use water spray, foam or dry chemical.  
**Fire Fighting Instructions:** Evacuate area and fight fire from a safe distance. Approach from upwind to avoid hazardous vapors and decomposition products. A foam or dry chemical fire extinguishing system is preferred to prevent environmental damage from excessive water run off. If water is used, avoid heavy hose streams. If possible, dike and collect water used to fight fire to prevent/minimize run off.  
**Fire Fighting Equipment:** Self-contained breathing apparatus with full face piece. Wear full firefighting turn-out gear (Bunker gear).  
**Hazardous Combustion Products:** Carbon monoxide, nitrogen oxides, phosphorous oxides.

## 6. ACCIDENTAL RELEASE MEASURES

Clean up spills immediately. Isolate and post spill area. Wear protective clothing and personal protective equipment as prescribed in Section 8 “Exposure Controls/Personal Protection”. Keep unprotected persons and animals out of area.

**Small Spill:** Absorb spill with inert material such as dry sand, vermiculite or fuller’s earth, then place in a chemical waste container.

**Large Spill:** Dike large spills using absorbent or impervious material such as clay or sand. Recover and contain as much free liquid as possible for reuse. Allow absorbed material to solidify and scrape up for disposal. After removal, scrub the area with detergent and water and neutralize with dilute alkaline solutions of soda ash or lime.
