

Dear 8th Grade Students and Families,

As you prepare to transition from middle to high school, there are several choices to consider. Each high school in New Hanover County offers specialty options or a signature program. In order for you to learn more about your options, the district will be hosting several presentations during the week of January 7-11.

We will offer student presentations during the day to all 8th grade students. In addition, we will offer nightly regional presentations for parents to attend and gather more information about our 8 high schools. The presentations will include a brief overview of each program or specialty option, break-out sessions hosted by each high school's lead teacher, question and answer sessions.

The schedule for the schools day/night presentations are listed below. If you are unable to attend the regional parent presentation assigned to your child's school, please feel free to join us on another listed night and location. We look forward to sharing the wide range of opportunities NHCS high schools and early colleges have to offer!

January 7 Student Only Presentations (during school day):
Myrtle Grove Middle School, Murray Middle School
Parent Presentation:
Minnie Evans Center 6:00-7:30
555 Halyburton Memorial Pkwy, Wilmington, NC
