

REPORT CARDS

The New Hanover County Board of Education (Board) believes that accurate and timely assessment of student performance is a necessity in the instructional process. Parents/guardians and students should be well informed of student progress so that they, along with the school staff, may adequately plan for improvement in student performance.

The Board requires the following steps to keep parents/guardians and students informed of the students' progress during the school year:

- In Grades K-12, there shall be four (4) grading periods during the school year. Report cards shall be sent to the parents/guardians of each student at the end of each grading period.
- In Grades K-12, an interim progress report shall be sent to the parents of each student at the midpoint of each grading period. If a student is failing, or has seen a performance drop of one (1) or more letter grades, the interim reports shall be more frequent.
- High school students enrolled in college courses shall receive only final grades for those courses.
- In courses that offer credit toward high school graduation, an examination shall be administered at the conclusion of each semester. End-of-Course examinations and NC Final Exams required by the State Board of Education shall be utilized in lieu of a teacher developed examination and shall count as twenty percent (20%) of the final grade, if the exam score is available, with the exception of students following the Occupational Course of Study.
