LETTER OF TRANSMITTAL

TO THE MEMBERS OF THE NEW HANOVER COUNTY BOARD OF EDUCATION AND CITIZENS OF NEW HANOVER COUNTY, NORTH CAROLINA

November 20, 2022

In compliance with the **Public School Laws of North Carolina**, the Annual Comprehensive Financial Report of the New Hanover County Board of Education (Board), operating as "New Hanover County Schools," for the fiscal year ended June 30, 2022, is herewith submitted. The accuracy, completeness and clarity of the financial report is the responsibility of the Board. This financial report has been prepared in accordance with Generally Accepted Accounting Principles (GAAP) by the Finance Department. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the Board. All disclosures necessary to enable the reader to gain an understanding of the Board's financial activities have been included.

This letter of transmittal is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The New Hanover County Board of Education's MD&A can be found immediately following the report of the independent auditor.

REPORTING ENTITY

The mission of New Hanover County Schools, in collaboration with our parents and the community, is to strive to provide children with an opportunity for a superior education in a safe and positive learning environment where they are prepared with the skills to succeed.

The Board of Education has the primary responsibility and control over all activities related to public school education in New Hanover County, North Carolina, and is required to maintain accounting records in a uniform state format established by the State's General Assembly. The seven members of the Board are elected by the public and have decision-making authority, the authority to designate management, and the ability to significantly influence operations. The state is the Board's primary source of funding which establishes programs which are supplemented by local funding. Although New Hanover County levies all local taxes used for education purposes, the Board determines how the school system will spend the funds generated for the schools. The County cannot modify the school system's budget. For these reasons, the Board is not fiscally dependent on the County and therefore is recognized as a primary government, as defined by the Governmental Accounting Standards Board. The Board receives government funding from local, state, and federal sources and must comply with established legal requirements of each funding source entity. The Board is not a component unit of any other government and has no component units of its own.

LOCAL ECONOMIC CONDITION AND FUTURE OUTLOOK

New Hanover County, located in the tidewater section of southeastern North Carolina on the Atlantic coast, has a diverse economy containing a variety of industries, including healthcare, manufacturing, pharmaceutical, education, business services and film. The second-smallest county in the state, New Hanover County encompasses 192 square miles, has a population of approximately 230,000.

The County experienced various economic impacts from the COVID virus in fiscal year 2022. Many industries saw a decreased demand and increased unemployment as lockdown measures were in place. Once lifted, the economy showed a strong recovery in many areas, especially hospitality and other services. This is reflected in a substantial decrease in the unemployment rate from 4.9% in fiscal year 2021 down to 3.6% in fiscal year 2022. The County's unemployment rate continued to be lower than the state's rate of 3.4%.

In 2021-22 New Hanover County Schools served 24,602 students from kindergarten through twelfth grade, 300 higher than the 2020-21 school year. Additionally, pre-k services were provided to 883 students in both public and private sites. Services were provided to students in 25 elementary schools, 1 K-8 elementary school, 6 middle schools, 4 high schools, 1 alternative high school/ pre-k Center, 1 K-8 alternative day treatment center, 1 alternative K-12 school, 3 early college high schools and 3 pre-k centers. Enrollment is estimated to increase to approximately 25,447 in 2023, as we anticipate families to continue to return from in-home and private schools in the new year.

The average age of school facilities in New Hanover County is 44 years, with 7 schools exceeding 70 years.

Additionally, local funds were transferred to 10 area charter schools, 1 lab school, and 2 virtual charter schools serving approximately 1,900 students, or 7% of the district's student population. New Hanover County Schools transfers an equal per-pupil share of the local current expense fund to the charters with \$6.7 million appropriated for the 2022-2023 fiscal year.

MAJOR INITIATIVES

Strategic goals and initiatives. The Board of Education adopted a new strategic plan as of July 1, 2022.

New Hanover County Schools (NHCS) Strategic Plan for 2022 – 2027 incorporates the voices of parents, students, community, staff, and Board to provide a guiding framework for the moving the School District forward. More than 5,000 persons shared their visions for the district and affirmed the mission of providing a superior education in a safe and positive learning environment where students are prepared with the skills to succeed.

To achieve this mission, NHCS Board and staff defined specific goals, strategies, and action steps that promote excellence in academic performance, a safe and supportive environment for students and staff, an equitable and inclusive school community, and the engagement of families and community members to support students as they learn. Staff teams will implement specific tactics that support the action steps that move the strategies forward; the strategies will advance the goals. Staff will regularly report progress to the Board and community as explained in section V. of the strategic plan.

Strategic goals

- Academic Performance Through rigorous academics at every grade level, students demonstrate readiness for productive citizenship, as well as higher education opportunities or meaningful employment.
- Student Safety and Wellness People and Places Provide facilities and services focused on safety and wellness to enhance teaching and learning.
- Supportive Environment for Teachers & Staff Ensure a supportive environment so that staff will perform their duties using the
 most effective methods possible to achieve optimal student learning.
- Equity, Diversity and Inclusion Students and staff agree that their school/worksite is an inclusive, equitable, and diverse place
 where they have a strong sense of belonging and connectedness.
- Family Engagement Increase meaningful family engagement and involvement across all schools.
- Community Partnerships Strengthen and increase community partnerships that directly enhance student opportunities and achievements.

New Initiatives

- The County provided targeted funding for the expansion of Local PreK Grant of an additional 6 classrooms.
- Minimum \$15 hourly pay for all employees
- Bus driver Minimum pay \$16
- Eliminate compression on classified salary schedules
- Classified retention bonuses for classified full time permanent employees

Capital Improvements. As required by the State Department of Public Instruction, New Hanover County Schools maintains a ten-year facilities plan that has been submitted and approved by the County Commissioners and the State Department of Public Instruction.

Work is coming to completion on projects related to the Bond Referendum for Capital Improvements that the voters passed in November, 2014. Available bond funding of approximately \$1 million is being used for completion of ongoing projects including district wide technology, safety and security, building system and infrastructure improvements.

The Capital Outlay Plan developed during the 2022-23 Budget Process totaled \$7.9 million, including \$4.6 million in County funded projects and \$2.7 million in State Lottery funding. Major projects include:

- Safety & Security Upgrades
- Repairs at various schools
- Technology equipment replacements

FINANCIAL SYSTEM AND BUDGETARY CONTROLS

Accounting System. The accounts of the Board are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues and expenditures or expenses as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Internal Controls. Management of the Board is responsible for establishing and maintaining internal controls designed to ensure that assets of the district are protected from loss, theft, or misuse and that adequate accounting data are compiled to allow the preparation of financial statements in conformity with generally accepted accounting principles. The controls are designed to prevent losses of public funds arising from fraud, employee error, and misrepresentation by third parties, or imprudent actions by Board employees. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations performed by the Board occur within the above framework. We believe that the Board's internal accounting controls adequately protect assets and provide reasonable assurance of the proper recording of financial transactions.

Funding for Public Education. The State of North Carolina is the primary funding source for education in New Hanover County. Federal and local funds are used to supplement state funding. Most local funds are allocated by the New Hanover County Board of Commissioners. The Board of Education has no tax levying authority.

Budgetary Controls. North Carolina General Statutes require all governmental units to adopt a balanced budget by July 1 of each year. The Board approved a Continuing Budget Resolution in June 2021, with final budget approval on July 7, 2021. The Board's annual budget resolution for 2021-22 authorized expenditures at the purpose/function level. This method is consistent with generally accepted accounting principles. The budgetary amounts in the accompanying financial statements are presented in conformity with the legally adopted budget resolution as amended during the fiscal year. For internal management purposes, the budget is allocated to line item expenditure accounts in compliance with the uniformed budget format mandated by the School Budget and Fiscal Control Act.

No obligation shall be incurred unless the budget resolution includes an appropriation authorizing the obligation and an unencumbered balance remains in the appropriation sufficient to pay in the current fiscal year. The Board uses a purchase order encumbrance system that records encumbrances outstanding against each expenditure line item. Contracts and purchase orders are preaudited and signed

by the Chief Financial Officer. All non-capital outlay outstanding encumbrances are cancelled at year-end. Capital Outlay encumbrances are carried over into the subsequent year and the corresponding budget amounts are re-appropriated.

Investment Objectives. Funds of the Board shall be invested in accordance with North Carolina General Statutes and this Cash Management and Investments Policy. The primary objectives, in priority order, of investment activities shall be safety, liquidity and yield.

INDEPENDENT AUDIT

State statutes require an annual audit by independent certified public accountants. The firm of Anderson Smith & Wike PLLC was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the federal Single Audit Act of 1984, as amended, the related Office of Management and Budget's *Uniform Guidance* and the North Carolina Single Audit Implementation Act, as stated before. Generally accepted auditing standards and the standards applicable to financial audits set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. Anderson Smith & Wike PLLC has issued an unmodified ("clean") opinion. The auditor's report on the management's discussion and analysis, the basic financial statements and the combining and individual fund statements and schedules is included in the financial section of this report on page 1. The auditor's reports on internal controls and compliance with applicable laws and regulations can be found beginning on page 67, in the compliance section of this report.

FINANCIAL REPORTING AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) and the Association of School Business Officials (ASBO) awarded Certificates of Achievement for Excellence in Financial Reporting to the Board for its annual comprehensive financial report for the year ended June 30, 2021. In order to be awarded Certificates of Achievement, the Board published an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. This was the twenty seventh and twenty eighth consecutive year that the Board received the GFOA and ASBO Awards, respectively.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the requirements for the Certificates of Achievement, and we are submitting it to the GFOA and ASBO to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The preparation of this report would not be possible without the dedicated efforts of the staff of the Finance Department. We would like to thank all employees who assisted in the management of system resources in accordance with Board policies and procedures.

We would also like to express our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial affairs of the school system in a responsible and dedicated manner, and the members of the Board of County Commissioners for their continued support throughout the past year.

Respectfully submitted,

Dr. Charles Foust Superintendent

INDEPENDENT AUDITORS' REPORT

To the New Hanover County Board of Education Wilmington, North Carolina

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the New Hanover County Board of Education, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the New Hanover County Board of Education's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the New Hanover County Board of Education, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General, State Public School, Federal Grants and Other Restricted funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the New Hanover County Board of Education and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the New Hanover County Board of Education's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the New Hanover County Board of Education's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the New Hanover County Board of Education's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 through 11 and the Schedules of the Board's Proportionate Share of the Net Pension Liability, OPEB Liability and OPEB Asset and the Schedules of Board Contributions on pages 51 through 56, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the New Hanover County Board of Education's basic financial statements. The accompanying individual fund budgetary schedules, other schedules and schedule of expenditures of federal and State awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the State Single Audit Implementation Act are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund budgetary schedules and schedule of expenditures of federal and State awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2022, on our consideration of the New Hanover County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the New Hanover County Board of Education's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering New Hanover County Board of Education's internal control over financial reporting and compliance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Anderson Smith & Wike PLLC

November 21, 2022 West End, North Carolina (910) 603-0508 This section of the New Hanover County Board of Education's (the "Board") financial report represents our discussion and analysis of the financial performance of the Board for the year ended June 30, 2022. This information should be read in conjunction with the audited financial statements included in this report.

Impact of Coronavirus on District

During the fiscal year, the state and nation continued to be affected by the coronavirus (COVID-19) pandemic. Educational services returned to the traditional classroom environment. The Board incurred additional expenses as a result of COVID-19 including: purchase of personal protective equipment, remote learning educational tools, learning loss remediation as a result of the online learning challenges and an increase in salaries due to Board's expansions of summer school programs and hiring, retention and COVID-19 bonuses. The Board received significant grants from the federal government to assist with these additional expenses incurred due to the world-wide pandemic.

Financial Highlights

- For the fiscal year ended June 30, 2022, the Board's total government-wide net position increased by \$30.0 million. Governmental activities net position increased by \$26.6 million, and business-type activities net position increased by \$3.4 million.
- The General Fund reported a decrease in fund balance of \$8.0 million for the year ended June 30, 2022 and the Other Restricted reported an increase of \$3.9 million.
- The Board received \$30.9 million of Education Stabilization funds to offset the cost of the COVID-19 pandemic.
- The Board's higher of 1st or 2nd month average daily membership (ADM) for the fiscal year ended June 30, 2022 was 24,602 students, an increase of 300 students over the 2021 ADM of 24,302.

Overview of the Financial Statements

The audited financial statements of the New Hanover County Board of Education consist of five components. They are as follows:

- Independent Auditors' Report
- Management's Discussion and Analysis (required supplementary information)
- Basic Financial Statements
- Required supplemental section that presents the Schedules of the Board's Proportionate Share of Net Pension and OPEB Liabilities (assets) and the Schedules of Board Contributions.
- Supplemental section that presents individual fund statements and budgetary schedules for governmental and enterprise funds.

The Basic Financial Statements include two types of statements that present different views of the Board's finances. The first is the Government-wide Statements. The government-wide statements are presented on the full accrual basis of accounting and include the statement of net position and the statement of activities. The statement of net position includes all of the Board's assets, deferred outflows of resources, liabilities and deferred inflows of resources. Assets and liabilities are classified in the order of relative liquidity for assets and due date for liabilities. This statement provides a summary of the Board's investment in assets, deferred outflows of resources, deferred inflows of resources and obligations to creditors. Liquidity and financial flexibility can be evaluated using the information contained in this statement. The statement of activities summarizes the Board's revenues and expenses for the

current year. A net (expense) revenue format is used to indicate to what extent each function is self-sufficient.

The second set of statements included in the basic financial statements is the *Fund Financial Statements*, which are presented for the Board's governmental funds and proprietary fund. These statements present the governmental funds on the modified accrual basis of accounting, measuring the near term inflows and outflows of financial resources and what is available at year-end to spend in the next fiscal year. The proprietary fund is presented on the full accrual basis of accounting. The fund financial statements focus on the Board's most significant funds. Because a different basis of accounting is used in the government-wide statements, reconciliation from the governmental fund financial statements to the government-wide statements is required. The government-wide statements provide information about the Board as an economic unit while the fund financial statements provide information on each of the financial resources of each of the Board's major funds.

Government-wide Statements

The government-wide statements report information about the unit as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Board's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net position and how they have changed. Net position is the difference between the Board's assets and liabilities. This is one way to measure the unit's financial health or position.

- Over time, increases or decreases in the Board's net position is an indicator of whether its financial position is improving or deteriorating.
- To assess the Board's overall health, you need to consider additional non-financial factors such
 as changes in the County's property tax base and the condition of its school buildings and other
 physical assets.

The unit's activities are divided into two categories in the government-wide statements:

- Governmental activities: Most of the Board's basic services are included here, such as regular
 and special education, transportation, and administration. County funding and State and federal
 aid finance most of these activities.
- Business-type activities: The Board charges fees to help it cover the costs of certain services it provides. School food service is included here.

The government-wide statements are shown as Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Board's funds, focusing on its most significant or "major" funds - not the unit as a whole. Funds are accounting devices the Board uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by State law, such as the State Public School Fund.
- The Board has established other funds to control and manage money for a particular purpose or to show that it is properly using certain revenues, such as in the Federal Grants Fund.

NEW HANOVER COUNTY BOARD OF EDUCATION MANAGEMENT'S DISCUSSION AND ANALYSIS

New Hanover County Board of Education has two types of funds:

Governmental funds: Most of the Board's basic services are included in the governmental funds, which generally focus on two things – 1) how cash and other assets that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. As a result of this focus, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the coming year to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental fund statements, in the form of a reconciliation, explains the relationship (or differences) between the government-wide and the fund financial statements. The Board has several governmental funds: the General Fund, the State Public School Fund, the Other Restricted Fund, the Individual Schools Fund, the Capital Outlay Fund and the Federal Grants Fund.

The governmental fund statements are shown as Exhibits 3, 4, 5 and 6 of this report.

Proprietary funds: Services for which the Board charges a fee are generally reported in the proprietary funds. The proprietary fund statements are reported on the same full accrual basis of accounting as the government-wide statements. The New Hanover County Board of Education has one proprietary fund - an enterprise fund – the School Food Service Fund.

The proprietary fund statements are shown as Exhibits 7, 8, and 9 of this report.

Financial Analysis of the Board as a Whole

Net position is an indicator of the fiscal health of the Board. Liabilities and deferred inflows exceeded assets and deferred outflows by \$95.2 million as of June 30, 2022 as compared to liabilities and deferred inflows exceeding assets and deferred outflows by \$125.2 million as of June 30, 2021, an increase of \$30.0 million. The largest component of net position is net investment in capital assets of \$285.2 million. Following is a summary of the Statement of Net Position as of June 30, 2022 and 2021:

Table 1
Condensed Statement of Net Position
As of June 30, 2022 and 2021

	Governmen	tal Acitivities	Business-ty	pe Activities	Total Primary Government			
	6/30/22	6/30/21	6/30/22	6/30/21	6/30/22	6/30/21

Total net position (deficit)	\$ (95,553,692)	\$ (122,118,816)	\$ 326,647	\$ (3,061,442)	\$ (95,227,045)	\$ (125,180,258)		

The net position of the Board's governmental activities increased \$26.6 million during the year, from \$(122.1) million at June 30, 2021 to \$(95.6) million at June 30, 2022. Restricted net position decreased by \$769,000, primarily due to a decrease in restricted fund balance for instructional services in the Other Restricted fund related to fund balance restricted for State and Federal grants accounted for within this fund. Unrestricted net position increased by \$33.1 million compared to the prior year as a result of the overall increase in net position due to decreases in pension and OPRB expenses. Net investment in capital assets decreased \$5.8 million due to an excess of depreciation expense over capital additions for the year. Deferred outflows and inflows of resources relate entirely to the pension and OPEB plans which the Board participates in. The Board is required to record its proportionate share of these items along with its proportionate share of the plan liabilities. See Note 2 of the financial statements for more details regarding these plans.

The net position of the Board's business-type activities increased \$3.4 million from \$(3.1) million at June 30, 2021 to \$327,000 at June 30, 2022. This increase is the net income generated by our school food service operations during the 2022 fiscal year. The income in the school food service fund is largely due to an increase in participation as students returned to a traditional in person learning schedule for the entire year. All students ate for free the entire year while the Board benefited from an increased reimbursement rate under the Summer Feeding program from the USDA. Revenues increased \$7.6 million, or 91.4% from the previous year and expenditures increased \$3.7 million, or 41.6%. While revenues and participation increased, the Board also recognized a corresponding increase in food costs and salaries offset by a decrease in pension and OPEB expenses. The following table shows the revenues and expenses for the Board for the current and prior fiscal years:

Table 2

Total governmental activities generated revenues of \$344.5 million while expenses in this category totaled \$317.9 million for the year ended June 30, 2022, resulting in an increase in net position of \$26.6 million (including transfers out to business-type activities of \$53,000). Comparatively, revenues were \$292.2 million, expenses totaled \$292.2 million and transfers out were \$353,000 for the year ended June 30, 2021, resulting in a decrease in net position of \$391,000. In comparing the two years, revenues increased \$52.3 million, or 17.9%, and expenses increased by \$25.7 million, or 8.8%. The Board received \$30.9 million Education Stabilization funds to help offset the cost of the COVID-19 pandemic

NEW HANOVER COUNTY BOARD OF EDUCATION MANAGEMENT'S DISCUSSION AND ANALYSIS

which largely attributed to the increase in revenues and expenses. The overall increase in revenues is also attributable to an increase in County appropriations of \$8.3 million, or 9.2%. The increase in revenues was greater than the overall increase in expenses due to a decrease in pension and OPEB expenses of \$26.8 million. See the footnotes for detailed information regarding pension and OPEB related amounts and disclosures.

The Board's primary sources of revenues were funding from the State of North Carolina, New Hanover County, and the United States Government, which respectively comprised 51.7%, 28.1% and 16.6% of our total governmental activities revenues. As would be expected, the major component of our expenses was instructional services which accounted for 76.1% of our total expenses during the most recent fiscal year. Of the remaining 23.9% of our total expenses, 21.2% was attributable to system-wide support services.

Our business-type activities generated revenues of \$15.9 million, expenses in this category totaled \$12.6 million for the year ended June 30, 2022. For the year, net position increased by \$3.4 million (including transfers in of \$53,000). Comparatively, net position decreased by \$215,000 for the year ended June 30, 2021. In comparing the two years, profitability improved by \$3.6 million. Revenues and transfers in for the year ended June 30, 2022 increased year-over-year by \$7.6 million when compared to the year ended June 30, 2021, this increase in revenues was offset by an increase in expenses of \$3.7 million. The increase in revenues and expenses is primarily due to an increase in participation resulting from the return to traditional learning schedules. The Board's School Food Service fund also experienced a decrease in pension and OPEB related expenses of \$3.0 million.

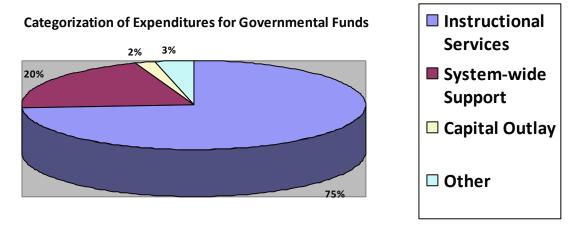

Financial Analysis of the Board's Funds

Governmental Funds: The focus of New Hanover County Board of Education's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Board's financing requirements.

The Board's governmental funds reported a combined fund balance of \$30.7 million at June 30, 2022, a decrease of \$4.3 million from the \$35.1 million reported at June 30, 2021. The Board's General Fund reported a decrease in fund balance for the year of \$8.0 million, compared to a decrease of \$1.2 million in 2021. The decrease in fund balance is the result of increases in Instructional and System-wide support services. The Capital Outlay fund balance also decreased by \$406,000 as a result of numerous capital projects in progress during the current year. The Board has deferred \$4.0 million in revenues received from the Office of State Budget Management for facility improvements to be undertaken starting next year.

The State Public School Fund and Federal Grants Fund do not carry fund balance. All revenues are expended in the year received. Federal revenues and expenditures increased by \$32.6 million for the fiscal year ended June 30, 2022 primarily due to the receipt of \$30.9 million of COVID-19 Education Stabilization funds used to help provide instructional and support services during the pandemic and provide services for learning loss, mental health services, 1:1 technology and facility repairs and improvements to help limit the spread of COVID-19. State Public School fund revenues and expenditures increased \$10.9 million or 6.5%, for the fiscal year ended June 30, 2022. The increase in State revenues and expenditures is a result of COVID-19 State Fiscal Recovery funds received to provide a COVID-19 pandemic bonus to staff employed during the pandemic and legislated increases to salaries and benefits.

The Other Restricted fund reported an increase in fund balance for the 2022 year of \$3.9 million, this increase is due to an increase in indirect costs allocated for the year ended June 30, 2022 due to the increase in federal funds received as well as an increase in the rate that could be charged to COVID-19 federal funds.

Expenditures presented on modified accrual basis of accounting.

Proprietary Fund: The Board's business-type fund, the School Food Service Fund, reported an increase in net position of \$3.4 million for the fiscal year ended June 30, 2022 compared to a decrease of \$215,000 for the same 2021 period, a year-over-year improvement of \$3.6 million. See the section above titled *Financial Analysis of the Board as a Whole* for a detailed explanation of the reasons for this decrease in profitability.

General Fund Budgetary Highlights

Over the course of the year, the Board revised the budget several times to account for changes in revenue expectations and program allocations. Since several revenue sources are either unknown or uncertain at the beginning of the fiscal year when the original budget is adopted, budget revisions are necessary throughout the year to recognize these adjustments.

For the year, the Board's General Fund reported a decrease in fund balance of \$8.0 million (including the decrease in reserve for inventory of \$78,000). Revenues from New Hanover County for the local operating budget increased \$9.0 million, from the prior year. Overall, total General Fund revenues increased by \$9.3 million from the prior year while expenditures increased \$16.0 million. The increase in revenues and expenditures in the General Fund was specifically attributed to increases in the County funded local supplements for certified teachers, instructional support services, principals and assistant principals.

Capital Assets

Total primary government capital assets were \$285.4 million at June 30, 2022 compared to \$291.6 million at June 30, 2021, a decrease of 2.1%. The following is a summary of the Board's capital assets, net of depreciation, at June 30, 2022 and 2021. More detailed information about the Board's capital assets is contained in Note 2 to the basic financial statements.

Table 3 Summary of Capital Assets As of June 30, 2022 and 2021

		Governmen	vernmental Activities			Business-type Activities				Total Primary Government

Debt Outstanding

During the year, the Board's long-term debt decreased by \$375,000 from \$606,000 at June 30, 2021 to \$231,000 at June 30, 2022. The Board is limited by North Carolina General Statutes with regards to the types of debt it can issue and for what purpose that debt can be used. The County holds virtually all debt issued for school capital construction. More detailed information about the Board's outstanding debt is contained in Note 2 to the basic financial statements.

Economic Factors

County funding is a major source of income for the school district; therefore, the County's economic outlook directly affects that of the school district. Along with the national and State economy, our local economy has felt the impact of the recent recession. The following factors impact the current economic outlook of New Hanover County and the Board of Education:

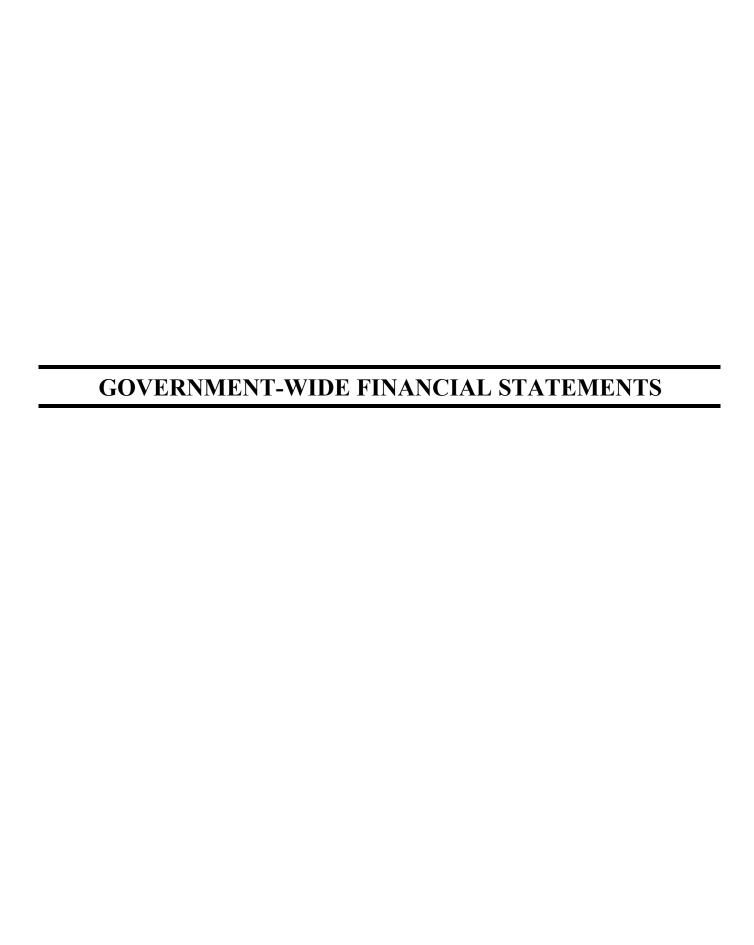

- The unemployment rate in New Hanover County at June 30, 2022 was 3.6% which is a 1.3% decrease from the 4.9% rate at June 30, 2021. The County's unemployment rate is slightly below the N.C. statewide rate which was 3.4% at June 30, 2022.
- New Hanover County's population estimation of approximately 230,000 is an increase of approximately 13.5% since 2010.

All of these factors were considered in preparing the Board's budget for the new fiscal year. The Board's budget was created with a focus on protecting instructional program allocations and personnel.

Requests for Information

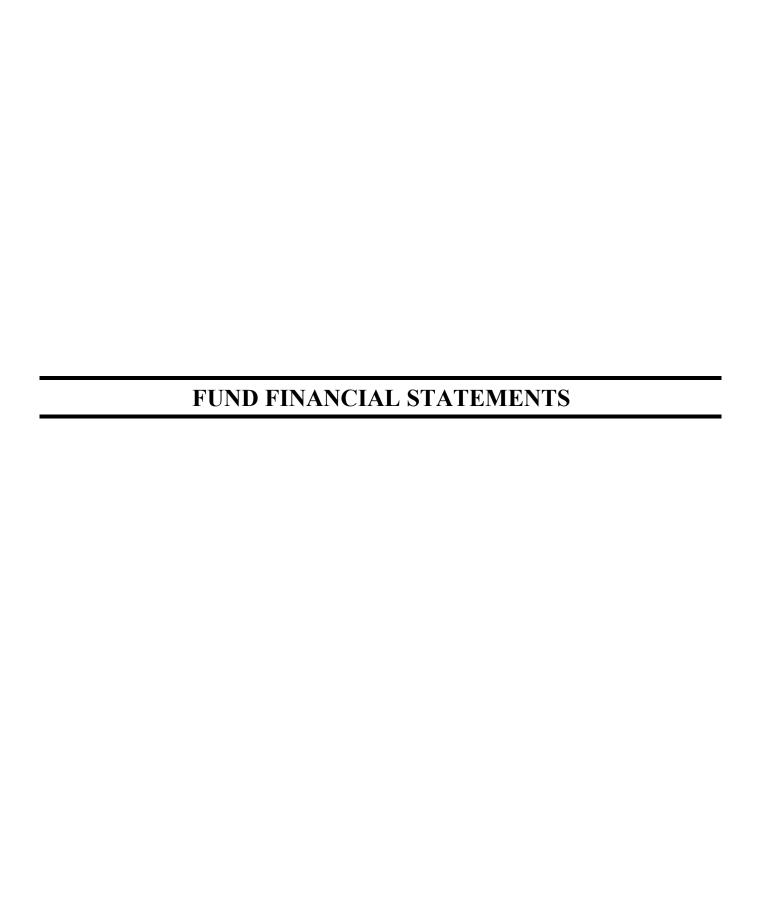

This report is intended to provide a summary of the financial condition of New Hanover County Board of Education. Questions or requests for additional information should be addressed to:

Ashley Sutton, Chief Financial Officer New Hanover County Board of Education 6410 Carolina Beach Road Wilmington, North Carolina 28412

Fund balances:							
Beginning of year	26,276,798	_	-	5,382,483	1,357,876	2,045,932	35,063,089
Change in reserve for inventories	(77,629)	-		-	-	-	(77,629)
End of year	\$ 18,264,059	\$ -	<u> </u>	\$ 9,288,916	<u>\$ 951,615</u>	\$ 2,241,870	\$ 30,746,460

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ (4,239,000)
Change in fund balance due to change in reserve for inventory	(77,629)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(6,170,629)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities	29,649,033
Contributions to the OPEB plans in the current fiscal year are not included on the Statement of Activities	11,548,280
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. OPEB nonemployer contributions	1,733,422
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	374,948
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Pension (expense) benefit Net OPEB (expense) benefit Compensated absences Loss on disposal of capital assets	(12,704,133) 9,781,895 (3,330,630) (433)
Total change in net position of governmental activities	\$ 26,565,124

NONCASH OPERATING AND NONCAPITAL FINANCING ACTIVITIES:

The School Food Service Fund received donated commodities with a value of \$1,081,441 during the fiscal year. The receipt of these commodities is reflected as a nonoperating revenue on Exhibit 8. The consumption of these commodities is recorded as an operating expense.

The State Public School Fund paid salaries and benefits of \$53,040 to personnel of the School Food Service Fund during the fiscal year. The payment is reflected as a transfer in and an operating expense on Exhibit 8.

School Food Service capital assets with a value of \$70,286 were purchased by the Capital Outlay Fund during the year. The value of these assets is reflected as a capital contribution on Exhibit 8.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of New Hanover County Board of Education conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The New Hanover County Board of Education (Board) is a Local Education Agency empowered by State law [Chapter 115C of the North Carolina General Statutes] with the responsibility to oversee and control all activities related to public school education in New Hanover County, North Carolina. The Board receives State, local, and federal government funding and must adhere to the legal requirements of each funding entity. The Board has no component units.

B. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the Board. These statements include the financial activities of the overall government. Eliminations have been made to minimize the effect of internal activities upon revenues and expenses. These statements distinguish between the *governmental* and *business-type activities* of the Board. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Board and for each function of the Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Board's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. All expenses are considered to be operating expenses.

The Board reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Board. The General Fund accounts for all financial resources except those that are accounted for in another fund.

State Public School Fund. The State Public School Fund includes appropriations from the Department of Public Instruction for the current operating expenditures of the public school system.

Federal Grants Fund. The Federal Grants Fund includes appropriations from the U.S. Government for the current operating expenditures of the public school system.

Other Restricted Revenue Fund. The Other Restricted Fund is used to account for revenues from reimbursements, including indirect costs, fees for actual costs, tuition, sales tax refunds, gifts and grants restricted as to use, federal and State grants restricted as to use, federal and State appropriations made directly to local school administrative units, funds received for prekindergarten programs and special programs.

Capital Outlay Fund. The Capital Outlay Fund accounts for financial resources to be used for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds). It is mandated by State law [G.S.115C-426]. Capital projects are funded by New Hanover County appropriations, restricted sales tax moneys, proceeds of New Hanover County bonds issued for public school construction, lottery proceeds as well as certain State assistance.

The Board reports the following nonmajor governmental funds:

Individual Schools Fund. The Individual Schools Fund includes revenues and expenditures of the activity funds of the individual schools. The primary revenue sources include funds held on the behalf of various clubs and organizations, receipts from athletic events, and proceeds from various fund raising activities. The primary expenditures are for athletic teams, club programs, activity buses, and instructional needs.

The Board reports the following major enterprise fund:

School Food Service Fund. The School Food Service Fund is used to account for the food service program within the school system.

C. Measurement Focus and Basis of Accounting

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Board gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Board considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. These could include federal, State, and county grants, and some charges for services. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Board funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Board's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

D. Budgetary Data

The Board's budgets are adopted as required by the North Carolina General Statutes. Annual budgets are adopted for all funds, except for the Individual Schools' Funds, as required by the North Carolina General Statutes. Per State law no budget is required for individual school funds. All appropriations lapse at fiscal year-end. Year-end capital outlay project appropriations are re-appropriated in the new fiscal year

and related encumbrances are carried forward to the new fiscal year. All budgets, except for the Child Nutrition Proprietary Fund, are prepared using the modified accrual basis of accounting, which is consistent with the accounting system used to record transactions. The child nutrition proprietary fund budget has been prepared under the accrual basis of accounting. A budget comparison statement is presented for the Child Nutrition Proprietary Fund.

Budgetary control is exercised in all funds except individual school funds. Expenditures may not legally exceed appropriations at the purpose/function total level (the legal level of control) for all annually budgeted funds. A budget comparison statement is presented for the General Fund, State Public School Fund, Federal Grants Fund and Other Restricted Revenue Fund, which includes a comparison of original budget, final budget, actual data and the variance between final budget and actual. Separately, schedules are presented Capital Outlay Fund and Enterprise Fund which include comparisons of final budget and actual data.

As specified in State law [G.S. 115C-433], the Board of Education retains the authority to approve all amendments which would increase the total of any fund. The Chief Financial Officer is authorized to approve transfers within the same function or project, and transfers between functions or projects up to \$50,000 within the same fund. Transfers which change the function in excess of \$50,000 in the aggregate must be reported to the Board at its next regular meeting. Budget amendments, transfers other than the aforementioned types or transfers between funds require prior governing board approval. Amendments which alter County appropriation of transfer monies to or from the capital project fund also require the approval of the New Hanover County Board of Commissioners. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Fund Equity

1. Deposits and Investments

All deposits of the Board are made in board-designated official depositories and are secured as required by State law [G.S. 115C-444]. The Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit. The Board also has money credited in its name with the State Treasurer and may issue State warrants against these funds.

State law [G.S. 115C-443] authorizes the Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; the North Carolina Capital Management Trust (NCCMT), an SEC-registered (2a-7) money market mutual fund; and the North Carolina State Treasurer's Short Term Investment Fund (STIF). The STIF is managed by the staff of the Department of State Treasurer and operated in accordance with State laws and regulations. It is not registered with the SEC. The STIF consists of an internal portion and an external portion in which the Board participates. Investments are restricted to those enumerated in G.S. 147-69.1.

The Board's investments are reported at amortized cost or at fair value as determined by quoted market prices or a matrix pricing model. Bank deposits and the NCCMT are measured at amortized cost, which is the NCCMT's share price. Ownership interest of the STIF is determined on a fair market valuation basis as of fiscal year end in accordance with the STIF operating procedures. Valuation of the underlying assets is performed by the custodian. Under the authority of G.S. 147-69.3, no unrealized gains or losses of the STIF are distributed to external participants of the fund.

2. Cash and Cash Equivalents

The Board pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Inventories

The inventories of the Board are valued at cost and the Board uses the first-in, first-out (FIFO) flow assumption in determining cost. Proprietary Fund inventories consist of food and supplies and are recorded as expenses when consumed.

4. Capital Assets

Donated assets received prior to June 30, 2015 are recorded at their estimated fair value at the date of donation or forfeiture. Donated capital assets received after June 30, 2015 are recorded at acquisition value. All other capital assets are recorded at original cost. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. Certain items acquired before July 1, 1995 are recorded at an estimated original historical cost. The total of these estimates is not considered large enough that any errors would be material when capital assets are considered as a whole.

It is the policy of the Board to capitalize all assets costing more than \$5,000 with an estimated useful life of two or more years. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives is not capitalized.

New Hanover County holds title to certain properties, which are reflected as capital assets in the financial statements of the Board. The properties have been deeded to the County to permit installment purchase financing of acquisition and construction costs and to permit the County to receive refunds of sales tax paid for construction costs. Agreements between the County and the Board gives the schools full use of the facilities, full responsibility for maintenance of the facilities, and provides that the County will convey title of the property back to the Board, once all restrictions of the financing agreements and all sales tax reimbursement requirements have been met.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Item	Capitalization Level	Years
Land improvements	10,000	20
Buildings	20,000	50
Building improvements	20,000	20
Mobile classrooms	20,000	20
Furnishings and fixtures	5,000	10
Vehicles	All	6
Buses	All	10
Equipment (non-computer)	5,000	5
Cafeteria equipment	1,000	12
Computer equipment and Software	5,000	3

Depreciation for assets that serve multiple purposes cannot be allocated ratably and is therefore reported as "unallocated depreciation" on the Statement of Activities.

5. Deferred outflows and inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Board has one item that meets this criterion - contributions made to the pension plan in the current fiscal year. The statement of financial position also reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Board has several items that meet this criterion – pension related deferrals, grants not yet earned in the Other Restricted Fund and sales tax refunds receivable in the State Public School Fund, Capital Outlay Fund, Federal Grants Fund, Other Restricted Fund, School Food Service Fund and Child Care Fund.

6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

7. Compensated Absences

The Board follows the State's policy for vacation and sick leave. Employees may accumulate up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Board, the current portion of the accumulated vacation pay is not considered to be material. The Board's liability for accumulated earned vacation and the salary-related payments as of June 30, 2022 is recorded in the government-wide and proprietary fund financial statements on a FIFO basis. An estimate has been made based on prior years' records of the current portion of compensated absences.

The sick leave policy of the Board provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Board has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

8. Net Position/Fund Balances

Net Position

Net position in the government-wide and proprietary fund financial statements is classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through State statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of four classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable fund balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Prepaid expenditures - portion of fund balance that is not an available resource because it represents the year-end balance of prepaid expenses, which are not spendable resources.

Inventories - portion of fund balance that is <u>not</u> an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Restricted fund balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - portion of fund balance that is restricted by State Statute [G.S. 115C-425(a)].

Restricted for instructional services – grant and other revenues restricted for expenditure for various instructional services, as allowable by the funding source.

Restricted for school capital outlay - portion of fund balance that can only be used for school capital outlay. [G.S. 159-18 through 22]

Restricted for Individual Schools – revenue sources restricted for expenditures for the various clubs and organizations, athletic events, and various fund raising activities for which they were collected.

Assigned fund balance – portion of fund balance that the Board of Education intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted. The Board of Education approves the appropriation.

Special revenue programs – portion of fund balance that represents the residual amount of revenues from certain grants, reimbursements, indirect costs and other financial resources in excess of related expenditures that the Board of Education has assigned to be expended for educational services. These amounts can be expended for instructional services, system-wide support services, ancillary services or non-programmed charges.

Unassigned fund balance – the portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The Board of Education has a management policy for revenue spending that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-board of education funds, board of education funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board of Education.

9. Reconciliation of Government-wide and Fund Financial Statements

a. <u>Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position</u>

The governmental fund balance sheet includes a reconciliation between *fund balance - total* governmental funds and net position – governmental activities as reported in the government-wide statement of net position. The net adjustment of \$(126,300,152) consists of several elements as follows:

Description	 Amount			
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds (total capital assets at historical cost on government-wide statement in governmental activities column) Less Accumulated Depreciation Net capital assets	\$ 509,863,403 (224,700,082) 285,163,321			
Net OPEB Asset	154,614			
Pension related deferred outflows of resources OPEB related deferred outflows of resources	51,345,319 42,309,175			
Liabilities that, because they are not due and payable in the current period, do not require current resources to pay and are therefore not recorded in the fund statements: Installment financing Compensated absences Net pension liability Net OPEB liability Deferred inflows of resources related to pensions Deferred inflows of resources related to OPEB	 (231,025) (15,843,170) (50,301,828) (286,576,276) (65,382,516) (86,937,766)			
Total adjustment	\$ (126,300,152)			

b. <u>Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities</u>

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. There are several elements of that total adjustment of \$30,804,124 as follows:

Description		Amount		
Capital outlay expenditures recorded in the fund statements but capitalized as assets in the statement of activities	\$	6,931,303		
Depreciation expense, the allocation of those assets over their useful lives, that is recorded on the statement of activities but not in the fund statements		(13,101,932)		
Loss on disposal of capital assets recorded in the statement of activities but not in the fund statements		(433)		
Principal payments on debt owed are recorded as a use of funds on the fund statements but affect only the statement of net position on the government-wide statements		374,948		
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities		29,649,033		
Contributions to the OPEB plans in the current fiscal year are not included on the Statement of Activities		11,548,280		
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds OPEB nonemployer contributions		1,733,422		
Expenses reported in the Statement of Activities that do not require the use of current resources to pay are not recorded as expenditures in the fund statements				
Pension (expense) benefit OPEB (expense) benefit Compensated absences are accrued in the government-wide statements but		(12,704,133) 9,781,895		
not in the fund statements because they do not use current resources		(3,330,630)		
Adjustment due to the use of the consumption method of recording inventory in the government-wide statements		(77,629)		
Total adjustment	<u>\$</u>	30,804,124		

10. Defined Benefit Pension Plan and OPEB Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' and State Employees' Retirement System (TSERS), the Retiree Health Benefit Fund (RHBF), and the Disability Income Plan of NC (DIPNC) and additions to/deductions from TSERS, RHBF, and DIPNC's fiduciary net position have been determined on the same basis as they are reported by TSERS, RHBF, and DIPNC. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Board's employer contributions are recognized when due and the Board has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of TSERS, RHBF, and DIPNC. Investments are reported at fair value.

NOTE 2 - DETAIL NOTES ON ALL FUNDS

A. Assets

1. Deposits

All of the Board's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Board's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Board, these deposits are considered to be held by the agent in the entity's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Board or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Board has no policy regarding custodial credit risk for deposits.

At June 30, 2022, the Board had deposits with banks and savings and loans with a carrying amount of \$26,527,235 and with the State Treasurer of \$1,519,267. The bank balances with the financial institutions and the State Treasurer were \$25,762,099 and \$9,186,357, respectively. Of these balances, \$2,268,799 was covered by federal depository insurance and \$32,679,657 was covered by collateral held by authorized escrow agents in the name of the State Treasurer.

2. Investments

At June 30, 2022, the Board had \$16,445,938 invested with the State Treasurer in the Short Term Investment Fund (STIF). The STIF is unrated and had a weighted average maturity of 1.3 years at June 30, 2022. The Board had \$3,868,578 invested in the NCCMT as of June 30, 2022. The Board has no policy for managing interest rate risk or credit risk. All investments are measured using the market approach. The STIF is classified in Level 2 of the fair value hierarchy and valued using prices that are either directly or indirectly observable for an asset or liability.

3. Accounts Receivable

Receivables at the government-wide level at June 30, 2022 are as follows:

	Due from other						
	governments			Other	Total		
Governmental activities:							
General Fund	\$	33,020	\$	299,823	\$	332,843	
Other governmental activities		3,853,094			_	3,853,094

System-wide support services	859,159
Unallocated depreciation	1,039,712
Total	\$ 13,101,932

Construction Commitments

The Board has several active construction projects as of June 30, 2022, including middle school renovations, a gym floor and security upgrades. At year-end, the Board's commitments with contractors for school construction are as follows:

<u>Projects</u>	Spent-to-date	Remaining Commitment
Various construction projects	\$ 25,101,138	\$ 4,200,000

- B. Liabilities
- 1. Pension Plan and Other Postemployment Obligations
- a. Teachers' and State Employees' Retirement System

Plan Description. The Board is a participating employer in the statewide Teachers' and State Employees' Retirement System (TSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the employees of Local Education Agencies and charter schools. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the TSERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the state Senate, one appointed by the state House of Representatives, and the State Treasurer and State Superintendent, who serve as exofficio members. The Teachers' and State Employees' Retirement System is included in the Annual Comprehensive Financial Report (ACFR) for the State of North Carolina. The State's ACFR includes financial statements and required supplementary information for TSERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

TSERS plan members who are LEOs are eligible to retire with full retirement benefits at age 55 with five years of creditable service as an officer, or at any age with 30 years of creditable service. LEO plan members are eligible to retire with partial retirement benefits at age 50 with 15 years of creditable service as an officer. Survivor benefits are available to eligible beneficiaries of LEO members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed 15 years of service as a LEO and have reached age 50, or have completed five years of creditable service as a LEO and have reached age 55, or have completed 15 years of creditable service as a LEO if killed in the line of duty. Eligible

beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions.

Contributions. Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Board employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the TSERS Board of Trustees. The Board's contractually required contribution rate for the year ended June 30, 2022, was 14.78% from July 1, 2021 to December 31, 2021 and 17.98% from January 1, 2022 to June 30, 2022 of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Board were \$30,129,600 for the year ended June 30, 2022.

Refunds of Contributions – Board employees who have terminated service as a contributing member of TSERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by TSERS.

At June 30, 2022, the Board reported a liability of \$51,117,146 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2020. The total pension liability was then rolled forward to the measurement date of June 30, 2021 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net pension liability was based on a projection of the Board's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating TSERS employers, actuarially determined. At June 30, 2021 and at June 30, 2020, the Board's proportion was 1.09164% and 1.08116%, respectively.

For the year ended June 30, 2022, the Board recognized pension expense of \$12,532,682. At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources
Differences between expected and actual experience	\$	2,873,360	\$	1,160,926
Changes of assumptions		19,174,591		-
Net difference between projected and actual earnings on pension plan investments		-		63,334,780
Changes in proportion and differences between Board contributions and proportionate share of contributions		-		1,946,565
Board contributions subsequent to the measurement date		30,129,600		-
Total	\$	52,177,551	\$	66,442,271

\$30,129,600 reported as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2023	\$ (7,492,261)
2024	(8,278,385)
2025	(9,199,154)
2026	(19,424,520)
2027	-
Thereafter	
Total	<u>\$ (44,394,320)</u>

Actuarial Assumptions. The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary increases 3.25 to 8.05 percent, including inflation and

productivity factor

Investment rate of return 6.50 percent, net of pension plan investment

expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study prepared as of December 31, 2019 and adopted by the Board of Trustees on January 28, 2021.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2021 are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2017 asset liability and investment policy study for the North Carolina Retirement Systems, including TSERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 2.50%. All rates of return and inflation are annualized.

Discount rate. The discount rates used to measure the total pension liability reported at June 30, 2022 and 2021 was 6.50% and 7.00%, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Board's proportionate share of the net pension asset to changes in the discount rate. The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 6.50 percent, as well as what the Board's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate:

	1% Decrease (5.50%)		Dis	scount Rate (6.50%)	1	% Increase (7.50%)
Board's proportionate share of the net						
pension liability (asset)	\$	171,466,165	\$	51,117,146	\$	(48,923,058)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report (ACFR) for the State of North Carolina.

b. Other Postemployment Benefits

Healthcare Benefits

Plan description. The Retiree Health Benefit Fund (RHBF) has been established as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is established by General Statute 135, Article 1 of General Statutes. It is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of former employees of the State, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments also participate.

Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members. RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the State Health Plan. The State Treasurer, with the approval of the State Health Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the State Health Plan.

The financial statements and other required disclosures for the plan are presented in the State of North Carolina's ACFR, which can be found at https://www.osc.nc.gov/public-information/reports.

Benefits provided. Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees. The plan options change when former employees become eligible for Medicare. Medicare retirees have the option of selecting one of two fully-insured Medicare Advantage/Prescription Drug Plan (MA-PDP) options of the self-funded Traditional 70/30 preferred Provider Organization plan option that is also offered to non-Medicare members. If the Traditional 70/30 Plan is selected by a Medicare retiree, the self-funded State Health Plan coverage is secondary to Medicare.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina (DIPNC) and retirees of the TSERS, the Consolidated Judicial Retirement System (CJRS), the Legislative Retirement System (LRS), the University Employees' Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's noncontributory premium.

Section 35.21 (c) and (d) of Session Law 2017-57 repeals retiree medical benefits for employees first hired January 1, 2021. The new legislation amends Article 3B of Chapter 135 of the General Statutes to require that retirees must earn contributory retirement service in TSERS (or in an allowed local system unit), CJRS, or LRS prior to January 1, 2021, and not withdraw that service, in order to be eligible for retiree medical benefits under the amended law. Consequently, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

RHBF's benefit and contribution provisions are established by Chapter 135, Article 1 and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions. By General Statute, accumulated contributions from employers to RHBF and any earnings on those contributions shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries. By statute, contributions to RHBF are irrevocable. Also by law, fund assets are dedicated to providing benefits to retired and disabled employees and their applicable beneficiaries and are not subject to the claims of creditors of the employers making contributions to RHBF. However, RHBF assets may be used for reasonable expenses to administer the RHBF, including costs to conduct required actuarial valuations of state—supported retired employees' health benefits. Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis are

determined by the General Assembly in the Appropriations Bill. For the current fiscal year, the Board contributed 6.68% of covered payroll from July 1, 2021 to December 31, 2021 and 5.90% from January 1, 2022 to June 30, 2022, which amounted to \$11,569,913. During the current fiscal year, the plan also recognized a one-time transfer of excess funding from the Public Employees Health Benefits Fund totaling \$187.0 million, which was isolated from the OPEB expense and allocated to participating employers as a separate contribution. The Board's proportionate share of this contribution totaled \$1,761,518.

At June 30, 2022, Board reported a liability of \$291,221,255 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. The total OPEB liability was then rolled forward to the measurement date of June 30, 2021 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net OPEB liability was based on a projection of the Board's present value of future salary, actuarially determined. At June 30, 2021 and at June 30, 2020, the Board's proportion was 0.94199% and 0.93756%, respectively.

\$11,569,913 reported as deferred outflows of resources related to OPEB resulting from Board contributions subsequent to the measurement date will be recognized as a decrease of the net OPEB liability in the year ending June 30, 2023. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

\$ (32,998,124)
(15,819,372)
(5,721,715)
(6,478,744)
3,556,722
\$ (57,461,233)
\$

Actuarial assumptions. Common actuarial assumptions for both OPEB plans follow individual note disclosures for each OPEB plan.

Inflation 2.50%

Salary increases 3.25-8.05%, include 3.25% inflation and productivity factor

Investment rate of return 6.50%

Healthcare cost trend rates:

Medical5.00-6.00%Prescription drug5.00-9.50%Administrative costs3.00%

Post-retirement mortality rates Pub-2010 Healthy Annuitant Mortality Table for males and females,

adjusted for classification for some Participants, further adjusted with scaling factors varying by participant group, and projected for mortality

improvement using Scale MP-2019

Discount rate. The discount rates used to measure the total OPEB liability for the RHBF at June 30, 2022 and 2021 were 2.16% and 2.21%, respectively. The projection of cash flow used to determine the discount rate assumed that contributions from employers would be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments of current plan members. As a result,

a municipal bond rate of 2.16% was used as the discount rate used to measure the total OPEB liability. The 2.16% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2021.

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the Board's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.16 percent) or 1-percentage point higher (3.16 percent) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	(1.16%)	(2.16%)	(3.16%)
Net OPEB liability	\$ 346,403,449	\$ 291,221,255	\$ 246,529,885

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the healthcare trend rates. The following presents the Board's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage point higher than the current healthcare cost trend rates:

			Health	care Trend Rates

Net OPEB liability	\$	235,840,100	\$	291,221,255	\$	364,689,451	

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued ACFR for the State of North Carolina.

Disability Benefits

Plan description. Short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain Local Education Agencies, and ORP.

Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members. Management of the plan is vested in the State Health Plan Board of Trustees, which consists of 13 members – eight appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer the State Superintendent and the Director of the Office of State Human Resources who serve as ex-officio members.

The financial statements and other required disclosures for the plan are presented in the State of North Carolina's ACFR, which can be found at https://www.osc.nc.gov/public-information/reports.

Benefits Provided. Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is

later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provide the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS after (1) reaching the age of 65 and completing 5 years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of service at any age.

Contributions. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The plan does not provide for automatic post-retirement benefit increases. Disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the General Assembly and coincide with the State fiscal year. For the fiscal year ended June 30, 2022, employers made a statutory contribution of 0.09% of covered payroll which was equal to the actuarially required contribution. Board contributions to the plan were \$165,547 for the year ended June 30, 2022.

The contributions cannot be separated between the amounts that relate to other postemployment benefits and employment benefits for active employees. Those individuals who are receiving extended short-term disability benefit payments cannot be separated from the number of members currently eligible to receive disability benefits as an other postemployment benefit.

At June 30, 2022, Board reported an OPEB asset of \$157,120 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2020. The total OPEB asset was then rolled forward to the measurement date of June 30, 2021 utilizing update procedures incorporating the actuarial assumptions. The Board's proportion of the net OPEB asset was based on a projection of the Board's present value of future salary, actuarially determined. At June 30, 2021 and at June 30, 2020, the Board's proportion was 0.96192% and 0.94487%, respectively.

\$165,547 reported as deferred outflows of resources related to OPEB resulting from Board contributions subsequent to the measurement date will be recognized as an increase of the net OPEB asset in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2023	\$ 102,208
2024	69,483
2025	90,321
2026	45,866
2027	18,182
Thereafter	 47,758
Total	\$ 373,818

Actuarial assumptions. Common actuarial assumptions for both OPEB plans follow individual note disclosures for each OPEB plan.

Inflation 2.50%

Salary increases 3.25%-8.05%, include 3.25% inflation and productivity factor Investment rate of return 3.00%, net of OPEB plan expense, including inflation

Sensitivity of the Board's proportionate share of the net OPEB asset to changes in the discount rate. The following presents the Board's proportionate share of the net OPEB asset, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower (2.00 percent) or 1-percentage point higher (4.00 percent) than the current discount rate:

	1%	1% Decrease		ount Rate	1%	Increase	
	((2.00%)		(3.00%)		(4.00%)	
Net OPEB asset	\$	99,203	\$	157,120	\$	210,699	

Common actuarial assumptions for both OPEB plans. The total OPEB liability was determined by an actuarial valuation performed as of December 31, 2020 using the following actuarial assumptions, applied to all periods in the measurement, unless otherwise specified. The total OPEB liability was calculated through the use of update procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2021. The update procedures incorporated the actuarial assumptions used in the valuation. The entry age normal cost method was utilized.

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer), and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions were based on the results of an actuarial experience review for the period January 1, 2015 through December 31, 2019.

DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2021. The long-term expected rate of return was determined based on the combination of expected future real rates of return and expected inflation. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2021 is 1.3%.

Following is information related to OPEB expense, proportionate share, assets, liabilities, deferred outflows of resources and deferred inflows of resources reported by the Board as of and for the year ended June 30, 2022:

	RHBF	DIPNC	Total
OPEB Expense (Benefit)	\$ (9,322,763)	\$ 344,881	\$ (8,977,882)
OPEB Liability (Asset)	291,221,255	(157,120)	291,064,135
Proportionate share of the net OPEB liability (asset)	0.94199%	0.96192%	
Deferred Outflows of Resources			
Differences between expected and actual experience	1,719,328	400,611	2,119,939
Changes of assumptions	23,819,391	27,588	23,846,979
Net difference between projected and actual earnings on plan investments Changes in proportion and differences between Board	-	15,333	15,333
contributions and proportionate share of contributions	5,261,853	15,380	5,277,233
Board contributions subsequent to the measurement date	11,569,913	165,547	11,735,460
Total Deferred Outflows of Resources	42,370,485	624,459	42,994,944
Deferred Inflows of Resources			
Differences between Expected and actual experience	5,420,983	-	5,420,983
Changes of assumptions	70,773,094	57,042	70,830,136
Net difference between projected and actual earnings on plan investments Changes in proportion and differences between Board	148,971	-	148,971
contributions and proportionate share of contributions	11,918,757	28,052	11,946,809
Total Deferred Inflows of Resources	88,261,805	85,094	88,346,899

2. Accounts Payable

Accounts payable as of June 30, 2022 are as follows:

	Salaries					
		Vendors	and Benefits			Total
Governmental activities:						
General Fund	\$	7,460,532	\$	2,499,028	\$	9,959,560
Other governmental activities		1,631,961				1,631,961
Total governmental activities	\$	9,092,493	\$	2,499,028	\$	11,591,521
Business-type activities:						
School Food Service Fund	\$	97,844	\$	58,741	\$	156,585

3. Unearned Revenues

The balance in unearned revenues at year-end is composed of the following elements

Governmental activities:

Grants not yet earned \$ 5,519,267

Business-type activities:

Prepayments of meals (School Food Service Fund) \$ 136,444

4. Deferred Outflows and Inflows of Resources

The balances in deferred outflows and inflows of resources at year-end is composed of the following:

	Deferred Outflows of Resources		 erred Inflows Resources
Board contributions subsequent to the measurement date			
Differences between expected and actual experience	\$	4,993,299	\$ 6,581,909
Changes of assumptions		43,021,570	70,830,136
Net difference between projected and actual earnings on pension plan investments		15,333	63,483,751
Changes in proportion and differences between Board			
contributions and proportionate share of contributions		5,277,233	13,893,374
Board contributions subsequent to the measurement date		41,865,060	
		95,172,495	 154,789,170

5. Risk Management

The Board is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2020-21 the Board purchased insurance through private insurers. The Board maintained Commercial General Liability coverage and Errors and Omissions coverage with a limit of \$1 million per occurrence. This policy had an annual aggregate limit for both General Liability and Errors and Omissions of \$3 million. This policy includes coverage for theft, disappearance, and destruction, as well as computer fraud coverage, forgery and alterations coverage, deception fraud coverage, funds transfer coverage, and public employee dishonesty coverage. Each of these theft and fraud related coverages have a per occurrence limit of \$250,000.00. The Board also maintains Commercial Auto coverage through a private insurer, with a \$3 million liability limit, as well as Uninsured Motorist Coverage, comprehensive and collision coverage. In addition, the Board maintains a Commercial Umbrella Liability policy with a coverage limit of \$1 million. The Board also maintained a Specialty Risk Protector policy which has Security and Privacy Liability Insurance with a coverage limit of \$1 million, Event Management insurance with a limit of \$1 million, and Cyber extortion insurance with a coverage limit of \$1 million. Statutory workers' compensation coverage is purchased through private insurers. Coverage is provided to the extent employees are paid from federal or local funds. Workers' Compensation coverage is also provided by the State of North Carolina through a self-insured fund, to the extent employees are paid from State funds. The Board also participates in the State Education Public School Insurance Fund (the Fund), a voluntary, self-insured risk control and risk financing fund administered by the North Carolina Department of Insurance. The Fund insures the tangible property assets of the Board. Coverage is provided on an "all risk" perils contract. Buildings and

contents are insured on a replacement cost basis. The Fund purchases excess reinsurance to protect the assets of the Fund in the event of a catastrophic event. The Fund maintains a self-insured retention of \$10 million. Excess reinsurance is purchased through commercial insurers. A limit of \$5 million per occurrence is provided on Earthquake, Business Interruption and Extra Expense. \$10 million per occurrence is provided on Increased Cost of Construction.

The Board also participates in the Teachers' and State Employees' Comprehensive Major Medical Plan, a self-funded risk financing pool of the State administered by Blue Cross and Blue Shield of North Carolina. Through the Plan, permanent full-time employees of the Board are eligible to receive health care benefits. The Board pays 96% of the full cost of coverage for employees enrolled in the Comprehensive Major Medical Plan.

In accordance with G.S. 115C-442, the Board provides for a blanket crime policy to cover all treasurers, officers, employees and agents who have custody of public money with a single loss limit of \$250,000. The Chief Financial Officer is bonded for \$250,000.

There have been no significant reductions in insurance coverage in the prior year, and claims have not exceeded coverage in any of the past three fiscal years.

6. Contingent liabilities

At June 30, 2022, the Board was a defendant to various lawsuits and legal claims. In the opinion of the Board's management and the Board's attorney, the ultimate effect of these legal matters will not have a material adverse effect on the Board's financial position.

7. Long-Term Obligations

a. Installment Purchases

The Board is authorized to finance the purchase of school buses under G.S. 115C-528(a). Session law 2003-284, section 7.25 authorized the State Board of Education to allot monies for the payments on financing contracts entered into pursuant to G.S. 115C-528. The State has accepted the bid to purchase Thomas Built Buses through special third party financing arrangements. The buses are pledged as collateral for the debt while the debt is outstanding. During the fiscal year ended June 30, 2021, the Board entered into such direct placement financing contracts for the purchase of school buses. The original amount of the Board's school bus direct placement installment purchase contracts outstanding at June 30, 2022 totaled \$924,098. The contract requires four equal principal-only payments with the first payment due within 10 days of receipt of the buses and the following 3 payments due on the next 3 immediately following November 15th dates.

The future minimum payments of the direct placement installment purchases as of June 30, 2022 are as follows:

Year Ending June 30:	Governmental Activities				
	<u>Principal</u>				
2023	\$ 231,025				
2024	-				
2025	-				
Total	<u>\$ 231,025</u>				

b. Long-Term Obligation Activity

The following is a summary of changes in the Board's long-term obligations for the fiscal year ended June 30, 2022:

		July 1, 2021	 Increases	 Decreases	J	une 30, 2022		Current Portion
Governmental activities: Direct placement								
installment purchases	\$	605,973	\$ -	\$ 374,948	\$	231,025	\$	231,025
Net pension liability		127,623,274	-	77,321,446		50,301,828		-
Net OPEB liability		256,657,349	29,918,927	-		286,576,276		-
Compensated absences		12,512,540	 16,831,969	 13,501,339		15,843,170		7,289,405
Total	\$	397,399,136	\$ 46,750,896	\$ 91,197,733	\$	352,952,299	\$	7,520,430
Business-type activities:								
Net pension liability	\$	3,002,447	\$ -	\$ 2,187,129	\$	815,318	\$	-
Net OPEB liability		3,428,499	1,216,480	· · ·		4,644,979		_
Compensated absences	_	291,668	 123,881	 212,733	_	202,816	_	103,828
Total	\$	6,722,614	\$ 1,340,361	\$ 2,399,862	\$	5,663,113	\$	103,828

Compensated absences, net pension and net OPEB liabilities related to governmental activities are typically liquidated by the General and other governmental funds. Installment purchases are typically liquidated by the Capital Outlay Fund.

C. Interfund Balances and Activity

1. Transfers to/from other Funds

Transfers to/from other funds at June 30, 2022 consist of the following:

From the State Public School Fund to the School Food Service Fund for personnel costs

53,040

D. Net Position/Fund Balance

1. Net Investment in Capital Assets – Governmental Activities

Net investment in capital assets presented in Exhibit 1 is calculated as follows:

Total governmental activities capital assets	\$ 285,163,321
Less:	
Installment purchase obligations for school buses	 (231,025)
Net investment in capital assets, governmental activities	\$ 284,932,296

2. Fund Balance

The following schedule provides management and citizens with information on the portion of General fund balance that is available for appropriation.

Total fund balance - General Fund	\$ 18,264,059
Less:	
Prepaids	(1,021,864)
Inventories	(821,522)
Stabilization by State statute	(1,777,778)
Appropriated fund balance in 2022-2023 budget	 (8,000,000)
Remaining fund balance	\$ 6,642,895

NOTE 3 - OTHER RESTRICTED FUND - OTHER REVENUES

Other revenues for the fiscal year ended June 30, 2022 in the Other Restricted Fund consists of the following:

Medicaid reimbursements	\$ 2,191,366
Tuition and fees	9,350
Private grants and programs	77,481
Indirect costs allocated	4,458,182
Contributions and donations	34,100
Rental of school property	75,131
Sales tax reimbursement	446,612
Interest earned on investments	89
Other	 68,637
Total other revenues	\$ 7,360,948

NOTE 4 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Federal and State Assisted Programs

The Board has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

STATISTICAL SECTION	

STATISTICAL SECTION (Unaudited)

The Statistical Section of the District's Annual Comprehensive Financial Report (ACFR) presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial outlook.

Sections

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and operations have changed over time.

Revenue Capacity

Since the District's local revenues are primarily provided by New Hanover County, these schedules on the county's revenue sources are relevant to an understanding of New Hanover County's most significant local revenue source, the property tax.

Debt Capacity

Since the District has no tax-levying or debt-issuing authority, the County of New Hanover provides significant funding to the school system. Selected fiscal data from the County of New Hanover has been included to help the reader better understand the school system and its financial operations.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place. County information is included.

Operating Information

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

INDEPENDENT AUDITORS' REPORT

To the New Hanover County Board of Education Wilmington, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of New Hanover County Board of Education, North Carolina, as of and for the year ended June 30, 2022, and the related notes to the basic financial statements, which collectively comprises the New Hanover County Board of Education, North Carolina's basic financial statements and have issued our report thereon dated November 21, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the New Hanover County Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the New Hanover County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT

Report On Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

To the New Hanover County Board of Education Wilmington, North Carolina

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited New Hanover County Board of Education, North Carolina's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the Board's major federal programs for the year ended June 30, 2022. The New Hanover County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the New Hanover County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the State Single Audit Implementation Act. Our responsibilities under those standards, the Uniform Guidance and the State Single Audit Implementation Act are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of New Hanover County Board of Education and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the New Hanover County Board of Education's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to New Hanover County Board of Education's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on New Hanover County Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and the State Single Audit Implementation Act will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about New Hanover County Board of Education's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and the State Single Audit Implementation Act, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding New Hanover County Board of Education's compliance with the
 compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- obtain an understanding of New Hanover County Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of New Hanover County Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT

Report On Compliance for Each Major State Program and Report on Internal Control Over Compliance Required by the Uniform Guidance and the State Single Audit Implementation Act

To the New Hanover County Board of Education Wilmington, North Carolina

Report on Compliance for Each Major State Program

Opinion on Each Major State Program

We have audited New Hanover County Board of Education, North Carolina's compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission that could have a direct and material effect on each of the Board's major State programs for the year ended June 30, 2022. The New Hanover County Board of Education's major State programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the New Hanover County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2022.

Basis for Opinion on Each Major State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and applicable sections of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) as described in the *Audit Manual for Governmental Auditors in North Carolina*, and the State Single Audit Implementation Act. Our responsibilities under those standards, the Uniform Guidance and the State Single Audit Implementation Act are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of New Hanover County Board of Education and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion on compliance for each major State program. Our audit does not provide a legal determination of the New Hanover County Board of Education's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to New Hanover County Board of Education's State programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on New Hanover County Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and the State Single Audit Implementation Act will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about New Hanover County Board of Education's compliance with the requirements of each major State program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and the State Single Audit Implementation Act, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding New Hanover County Board of Education's compliance with the
 compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- obtain an understanding of New Hanover County Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of New Hanover County Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal and State Awards:

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal and State awards (SEFSA) includes the federal and State grant activity of New Hanover County Board of Education under the programs of the federal government and the State of North Carolina for the year ended June 30, 2022. The information in this SEFSA is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Implementation Act. Because the Schedule presents only a selected portion of the operations of New Hanover County Board of Education, it is not intended to and does not present the financial position, changes in net assets or cash flows of New Hanover County Board of Education.

Note 2. Summary of Significant Accounting Policies

Expenditures reported in the SEFSA are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

New Hanover County Schools has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3. Cluster of Programs

The following are clustered by the NC Department of Public Instruction and are treated separately for state audit requirement purposes: School Nutrition Program
